## Logo samples

We will need a sample of each logo that you want included in your font. For best results, we recommend that you submit your logo(s) in a digital vector graphics format, such as Illustrator or EPS. However, we can work from copies printed on smooth white paper. Since fonts are monochrome, we will replace colors with black and white.

## Font keyboard mapping

**Fontgoz'** keyboard mapping assignments determine the key(s) that you will use to type (place) your logo(s) in documents. You will need to specify these keyboard mapping assignments. In the table below, click a numbered check box for each logo that you want included in your font, type in the specific case-sensitive (upper or lower case) key that you prefer to use to "type" it, and give a brief description to help us identify it:

Logo	Key	If more than one logo, please describe each logo ( <i>to help us recognize it</i> )
1		
2		
3

For more than 5 logos, please **send email to us** before ordering to arrange a quantity discount.
